# Mission Statement for Event

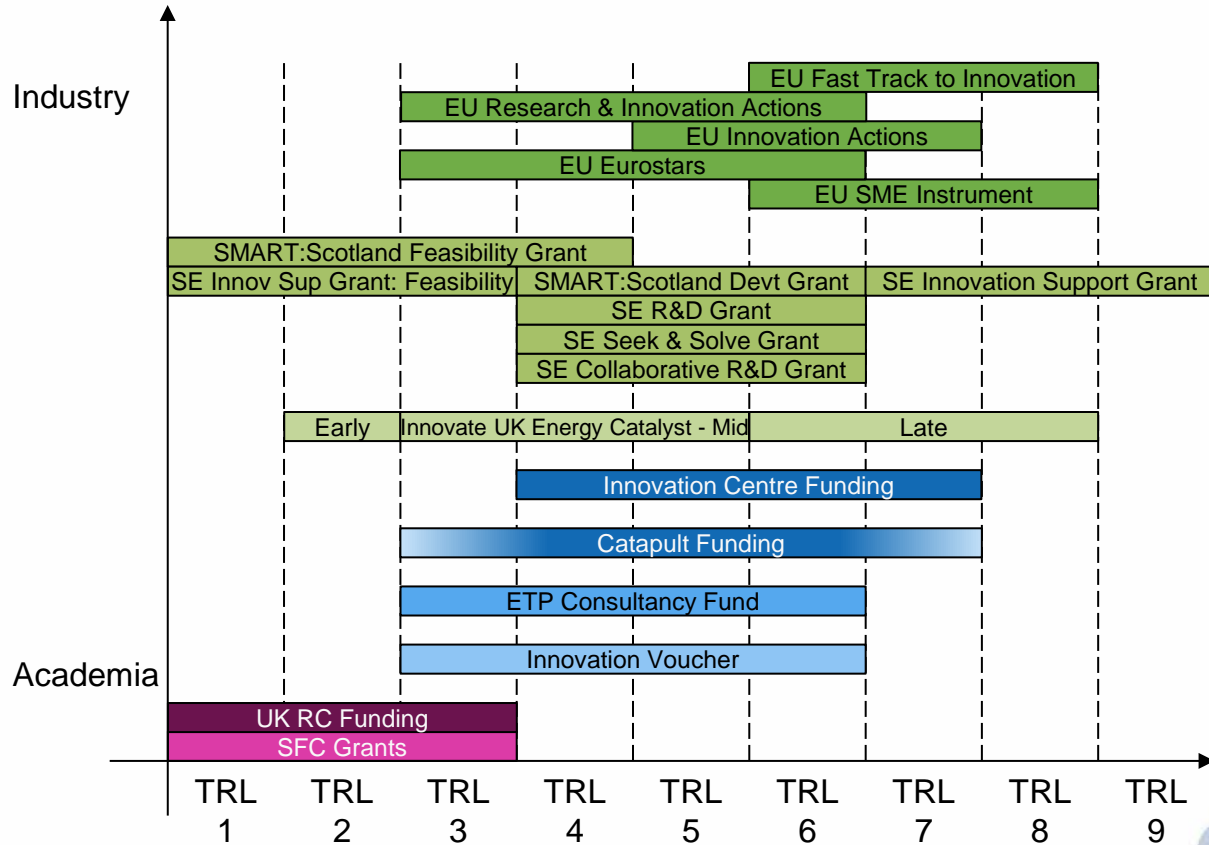

The ETP and sister Research Pools have a decade of experience in developing and representing academic research excellence in the energy sector. By engaging with industry (including trade bodies), and public sector bodies during the course of this event, we will demonstrate the capabilities of academia, and identify avenues of cooperation that will support the development of the draft Energy Strategy.

# Outcomes for Event

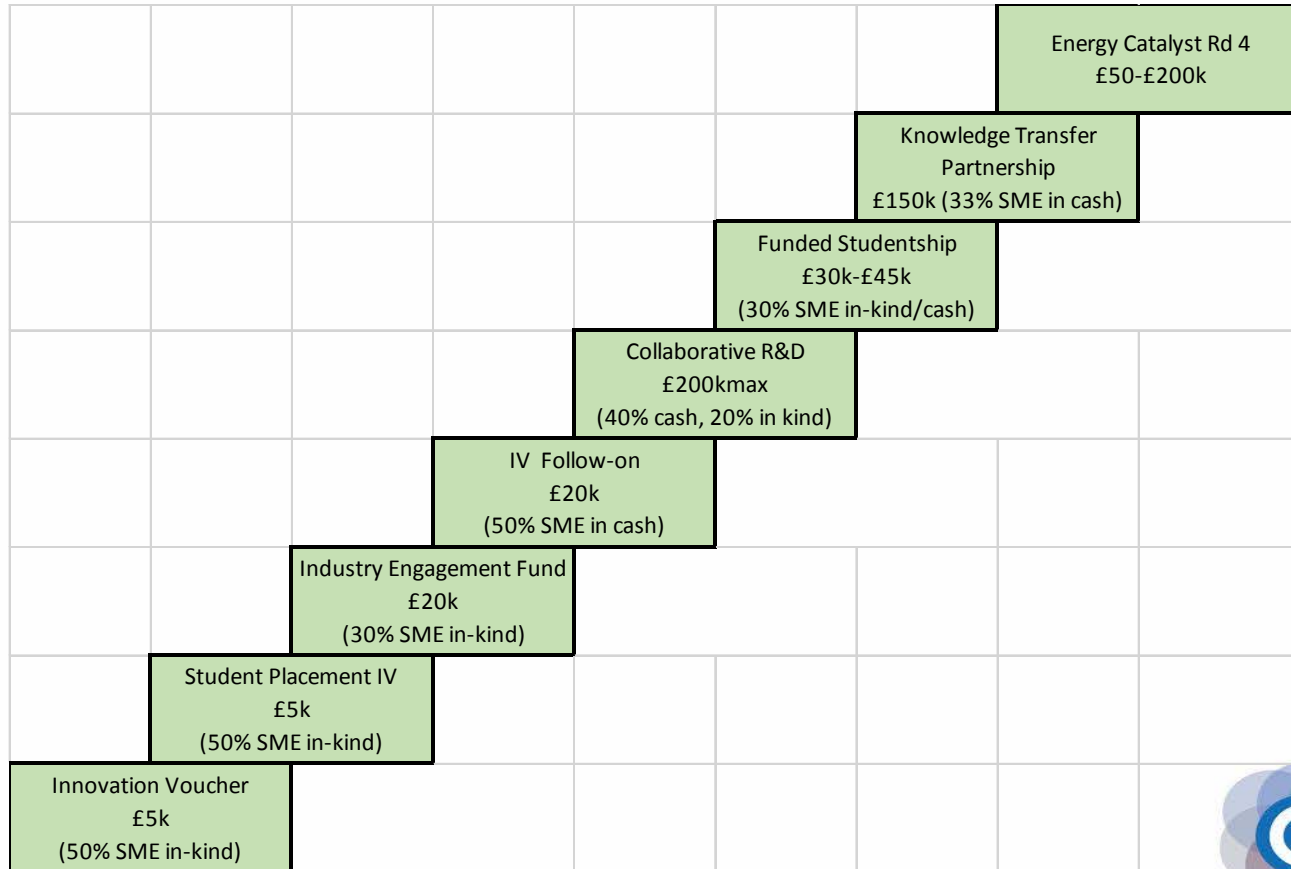

Each session will produce a statement identifying the RDD required to deliver the strategy, and the avenues of potential collaboration across sectors

# Innovation Funds – TRL Coverage

# Innovation Funding Escalator for Industry – Academic Engagement
